Smart Trade Credit & Sourcing for Importers

Smart Trade Credit, Global Sourcing & Investment Management Oriberg delivers flexible trade credit, global product sourcing, import financing, and investment management solutions. We help businesses improve cash flow, defer supplier payments, and scale confidently across international markets.

Oriberg

About Oriberg

Oriberg is a specialist division of the Bergix Group, officially registered in the UAE under DigitalBerg FZC. We act as a strategic trade credit and sourcing partner, connecting global buyers with trusted suppliers across the UAE, UK, USA, and beyond. Our mission is to empower importers, SMEs, and institutional traders with flexible financing solutions, deferred payment credit lines, and scalable global procurement support. As an authorised agent of a leading German asset finance company, Oriberg is committed to delivering reliable, transparent, and high-impact financial services with a focus on cross-border compliance and sustainability.

Oriberg – A Bergix Group Company

Oriberg is a strategic arm of the Bergix Group, which also encompasses DigitalBerg (dedicated hosting and infrastructure), MFE Consultancy (cloud, data centre, and ELV integration), and PixiBerg (creative branding and packaging). This multi-sector framework enables Oriberg to deliver finance-backed sourcing, supply chain solutions, and strategic support.

Mission

Enabling growth for global importers and SMEs through smart finance and seamless global sourcing.

Vision

To become a world-leading partner in unlocking trade, driving financial innovation, and facilitating sustainable global commerce.

Why Choose Oriberg

Oriberg's unique model combines financial expertise, sourcing efficiency, and compliance-backed credit structuring. We serve clients across more than eleven countries, with a strong presence in the UK, UAE, and USA. Our affiliations with Dun & Bradstreet and CRIF enable us to assess clients with precision, speed, and transparency. Clients trust us to manage deferred supplier payments, seasonal cash flow challenges, and international procurement risks all with minimal paperwork and, where possible, without collateral.

Our Services

Trade Credit & Finance

We provide flexible trade credit facilities, including deferred payment structures, supplier financing, and credit limits determined by turnover and compliance. This enables businesses to import goods now and pay later, enhancing cash flow while maintaining supplier confidence and trust.

Global Product Sourcing

We source premium spices, fresh produce, urea, chemicals, and general commodities from thoroughly vetted suppliers in India, Vietnam, China, and other key markets. Our logistics team manages end-to-end shipping, quality control, and temperature-regulated transport to ensure reliability and product integrity throughout the supply chain.

Sector-Based Finance

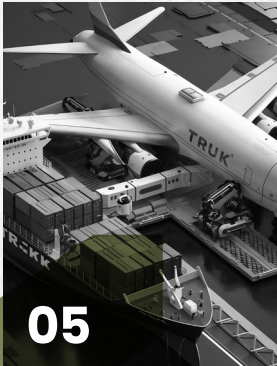

Oriberg provides financing for equipment and supplies across sectors such as technology, construction, telecommunications, PPE, and healthcare. Our structured solutions enhance supply chain continuity and optimise working capital flexibility.

Bio Investment & Vaccine Development

We support biopharmaceutical manufacturing and vaccine infrastructure development in emerging nations. Our financing structures enable partners to achieve self-reliance within three years through turnkey facilities and compliance-aligned systems that meet EMA and FDA standards.

Our Services

Aviation Strategy & Logistics

Oriberg supports aviation development through project financing, strategic structuring, and asset-based advisory. Our group's experience includes logistics support for cargo and passenger aircraft, overflight permits, maintenance planning, chartered routes, and emergency medical transfers.

Cloud, Data Centre & ELV Integration

Through MFE Consultancy, Oriberg offers cloud infrastructure, intelligent ELV system design, and scalable data centre solutions. We help clients implement future-ready IT and operational frameworks that enhance efficiency and long-term resilience.

Corporate & Medical Insurance

We facilitate risk management solutions, including corporate liability, employee health, medical, and trade insurance. Our insurance structures are tailored for import and export businesses, SME teams, and organisations operating in regulated sectors.

Crypto & Forex Trading Finance

Oriberg provides financial structuring for licensed crypto and forex brokerages. We support platform development, regulated trading infrastructure, and offer liquidity assistance to fintech firms expanding within the digital asset economy.

What We Finance

Oriberg Asset Portfolio

We finance a wide range of equipment and business sectors, including, but not limited to, the following:

- IT hardware and software, copiers, telecommunications, and security systems
- Medical and educational equipment
- Office furniture, vending machines, coffee machines, and printing equipment
- Exercise and catering equipment
- Green technologies (e.g., solar panels and EV charging systems)
- Robotics and industrial automation
- Audiovisual, ELV, and surveillance systems
- Hospitality and beauty industry equipment
- Laundry, sanitation, and cleaning machinery
- Forklifts, compressors, and garage equipment

Our Team

Oriberg is a trusted partner for global importers across the UK, UAE, and USA, providing smart trade and investment solutions. Built on two pillars—flexible Global Trade Credit Lines and Smart Global Sourcing—Oriberg helps businesses optimise cash flow, access deferred payment options, and scale without collateral or lengthy approvals. Alongside sourcing premium goods such as spices, fresh produce, and industrial materials from verified suppliers, Oriberg also offers investment management services, enabling clients to grow their capital strategically while strengthening their global trade operations.
